

Kansas City, Kansas Public Library MobilePrint Instructions

MobilePrint, or wireless printing, is now working at MAIN, SOUTH, TURNER, and WEST.

Submit your print job to the print queue for the branch and printer you want to use, and then pay for the print at the library, like you would when printing from the public lab.

There are three ways to print: the web portal, using a mobile app, and using email.

Web Portal Instructions

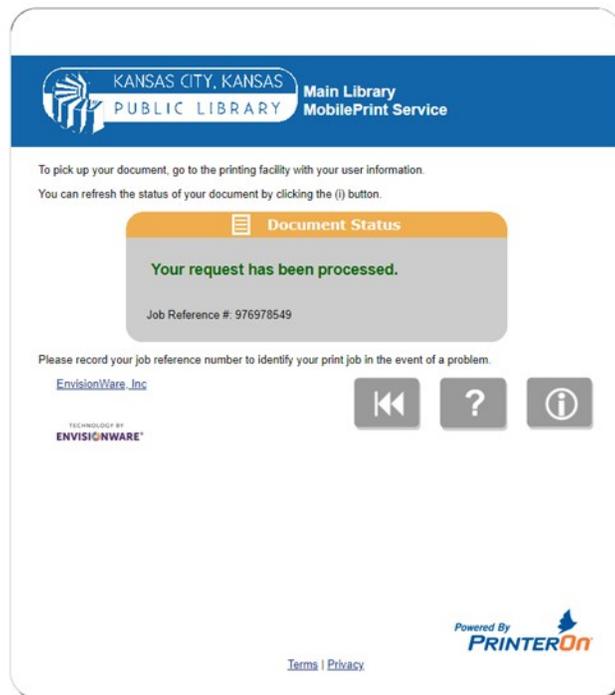

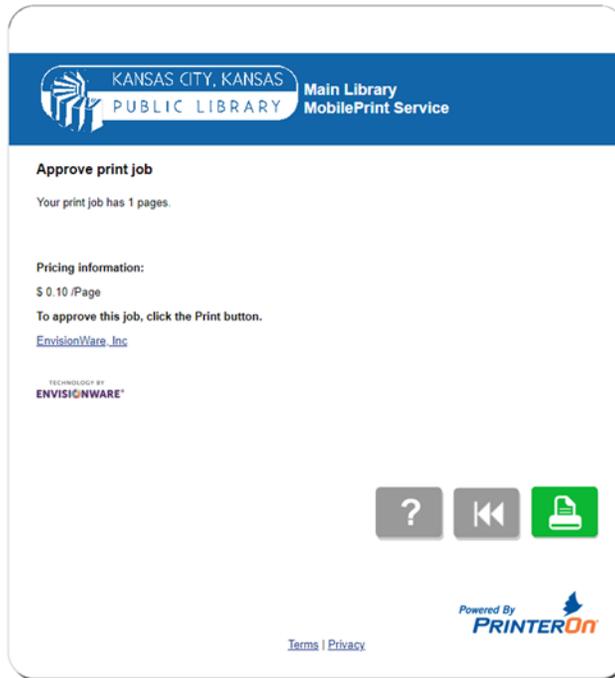

To use a web portal for the branch go to the web address for your chosen branch. Then select a printer type (black and white or color), enter your email address (for your position in the printer queue), and upload your document to print. You can then go to the library branch to pay for and retrieve your document.

<http://www.printeron.net/kckpl/main>
<http://www.printeron.net/kckpl/south>
<http://www.printeron.net/kckpl/turner>
<http://www.printeron.net/kckpl/west>

Enter your information, as in the example below, and click on the right-hand triangle to proceed:

A screenshot of the Kansas City, Kansas Public Library MobilePrint Service web portal. The page has a blue header with the library logo and the text "KANSAS CITY, KANSAS PUBLIC LIBRARY Main Library MobilePrint Service". Below the header, there is a welcome message and the address "625 Minnesota Avenue, Kansas City, KS 66101, UNITED STATES". The main content area is divided into three columns: "Printer" with radio buttons for "Black and White" (selected) and "Color", and a "Details" button; "User Info" with an "Email address:" field containing "bmccoy@kckpl.org" and explanatory text; and "Select Document" with a "File or URL:" field containing "KCKPL.org.jpg" and a "Browse..." button. At the bottom, there are three help links: "How do I print from a mobile device?", "How do I print a boarding pass?", and "What types of files can I print?". On the right side of the bottom row, there are three buttons: a question mark, a close button (X), and a right-pointing triangle.

The program will then count the number of pages you are printing and show you the cost per page, and you can click the image of the printer to actually submit the print job:

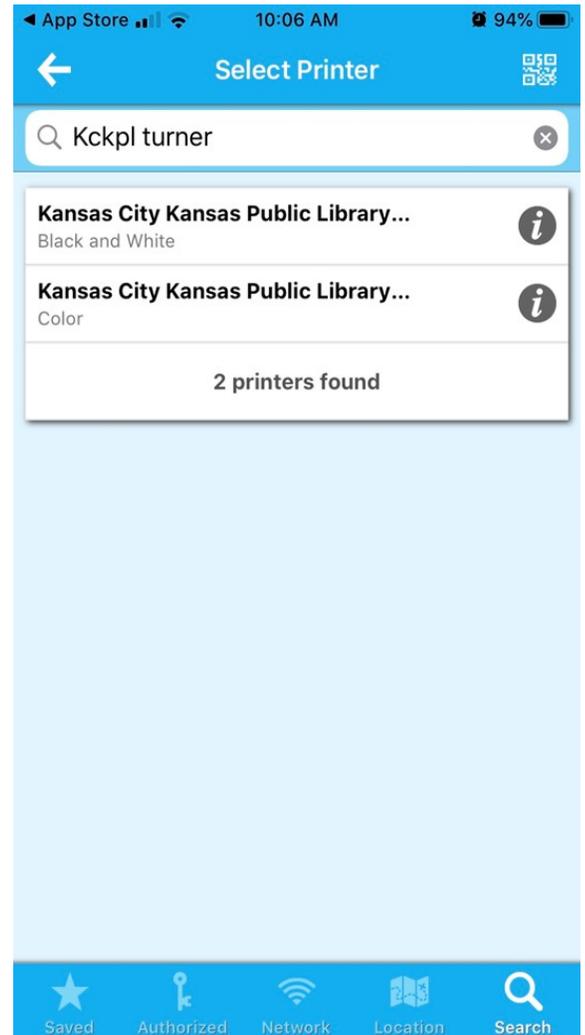

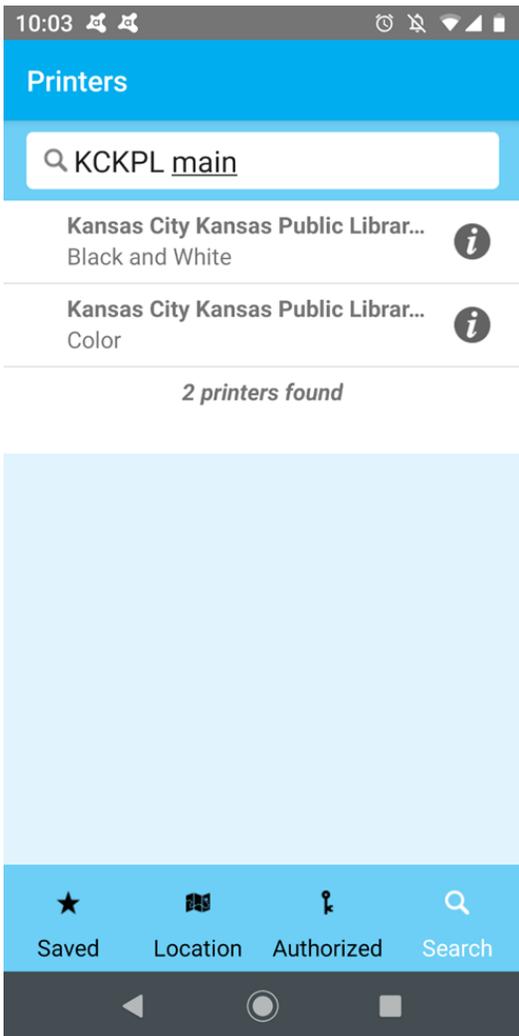

This screen will show you the processing of your request. You can get updated information by pressing the circled “i” in the lower-right.

App Print Instructions

If you have an Android or Apple device, you might want to use the apps, which are available from the respective online stores. Look for the PrinterOn application and install it.

Click on the printer selection button at the bottom of the app and search for KCKPL [branch] to find the printers available. Searching for KCKPL MAIN on Android looks as below on the left, while searching for KCKPL Turner on an Apple device looks very much the same.

Click on which printer you want to use, select your document, click on the PRINT icon, enter your email address, and your dent's on the way to the print queue for you to pick up at the library! It will taka minute or two to process the document and actually send it on the way.

Email Instructions

Send or forward an email with attachment(s) to the email address of the printer. Each branch has two public printers available.

Main Library

Black and White Printer: KCKPL-MAIN-BW@PRINTSPOTS.COM
Color Printer: KCKPL-MAIN-COLOR@PRINTSPOTS.COM

South Branch Library

Black and White Printer: KCKPL-SOUTH-BW@PRINTSPOTS.COM
